## THE LINGUA PLANTA LIBRARY

1. All of the @linguaplanta perfumes have been made with intention, with the aim to evoke a feeling of immersion in nature with 100% plant-based materials.
2. All materials used in @linguaplanta perfumes started their life as a plant. They offer perfumes that not only smell nice, but also embody their values of sustainability and respect for plants & planet.
3. @linguaplanta, perfumes inspired by plants, made from plants.
4. @linguaplanta creates natural perfumes based on plant intelligence. Scientists have discovered that plants communicate with one another and with other organisms through a language of scent. This is what @linguaplanta captured. They translated their language into unique perfumes with all things natural for our mind, heart, and noses.
5. With their inherent connection to nature, the fragrances of @linguaplanta possess the ability to transport you to distant lands and cherished memories. By experiencing the fragrances of @linguaplanta, you can immerse yourself in the language of nature and connect with the world around you in a new and profound way.
6. A @linguaplanta perfume journey! Lingua Planta, a small design studio in The Netherlands, consciously create perfumes with the highest quality plant-based ingredients that are chosen in deep reverence of nature.
